Backlight function operation

Press  to change the backlight color, press once to change to the Next color. There are total four selections, They are green, red, blue and Off in cycling;

Auto sleep/wake up function

This keyboard has two kinds auto sleep function. one is 3 minutes, the other is 2 hours. The keyboard will enter into sleep automatically if

having no key press and no touch in 3 minutes(model 1) or 2 hours (model 2).In sleep mode all leds are out. The machine can wake up by pressing any key. You can choose model by pressing FN+ESC. Default is 3 minutes. If you feel 3 minutes is too short, you can press FN+ESC to convert it into 2 hours model.

Turn off the device after use

After use, please turn off the device and remove the USB receiver from the USB port. You need to install the USB receiver into the USB receiver chamber.

Note: the supplied USB cable only can be used to charge the battery.

System Support Note:

1. It can work on Amazon Fire TV as follow: use an app called app2 fire on android. You can send any app to fire TV. Then run it so for example Google chrome. the keyboard works as mouse and keyboard. Just note that it only works on side loaded application's. For example Google chrome, Firefox, KODI is a native app on fire.
2. Not suitable for all smart TV. Some smart TV do not support external input device. Before you place the order, please use a wired keyboard to check if it can work.
