Use it with your android box or smart tv on your sofa or browse the internet in the most comfortable fashion.

### Package contents

- Keyboard touchpad Combo
- USB Wireless Receiver
- User Manual
- USB Charging Cable

### System Requirements

- HID compatible device
- Terminal with USB port
- Windows 2000
- Windows XP
- Windows Vista, Windows CE, Windows 7, Windows 8

- Linux (Debian-3.1, Redhat-9.0, Ubuntu-8.10, Fedora-7.0 tested)
- Android OS (With standard USB interface)

Please note:

1. It can work on Amazon Fire TV as follows: use an app called app2 fire on android. You can send any app to fire tv. Then run it so for example google chrome. the keyboard works as mouse and keyboard. Just note that it only works on sideloaded application's. for example google chrome, firefox, showbox. KODI is a native app on fire.
2. Not suitable for all smart tv. Some smart tv do not support external input device. before you place the order, please use a wired keyboard to check if it can work.

### Specifications

Receiver(dongle): Nano style  
 Connection port : With USB2.0 above

 Power supply: Rechargeable polymer Lithium-ion battery  
 Charging voltage: 4.4V ~ 5.25V  
 Charging current: 300mA  
 Sleeping current class1: 30uA  
 Operation voltage: 3.7V

Operating current: <15mA  
 Product weight: 110g  
 Product size: 146.8\*97.5\*19mm

### Installation

1. Take off the USB receiver from back cover of the keyboard
2. Plug the USB Receiver into your device's USB port. Such as android tv box, smart tv
3. Turn on the keyboard.

A blue LED will stay on. That means the keyboard has paired with your device. You can enjoy the keyboard now!

Note:

1. The three port extension USB cable can not only be used for battery charging but also solving signal interference! It can not be used as digital connection
2. if the blue LED does not stay on and orange light stay flashing, it means the keyboard need to be paired with your device handly. As for how to pair, please try following steps:

Step1: Keep your PC on, and be sure the keyboard is full of power.:
Step2: Press the "F1" without releasing.
Step3: Power on the keyboard and release the "F1" immediately.
Step4: Plug the USB receiver on the USB port of your PC.
Wait a moment. The keyboard will repair automatically.
When the yellow light stop flashing and blue led on, it means successful.

3. About the meaning of the three leds (orange, blue and red)  
**Red:** means charge status. When start to charge, it will be on. When it is powerful, it will be off automatically.

**Blue:** means pair status. When it is on, it means keyboard is paired with your device successfully. If it is off, it means not be paired. You need to do the above 4 steps to repair it.

**Orange:** means sync. It will flashing whatever you type any button or touchpad. If it not flash, it means it has something wrong on keyboard or the compatibility.

4. About signal interference: special for android tv box and smart tv. Large size monitor's device always has some signal interference. Signal interference may result to short distance and buttons do not work as well. When you press "a", "aaaaaaa..." will appear. For this case, you can use the three port extension cable we shipped to you to solve it. please plug the extension cable to your smart tv, and plug usb receiver on the cable. then pair and use remote keyboard

5. Shortcut Keys:  
 FN+RF: enter into pair model  
 FN+F7: Screenshot  
 FN+F8: Turn on/off touchpad mouse  
 FN+F9: F11  
 FN+F10: F12

FN+Back: Delete  
 FN+PgUp: Home

6. Special keys use in special layout. such as @ in UK layout. This keyboard has different layout. Please know exactly which layout do you want. For example. If you want and buy UK layout. And you want to use @. You need to first change your device's system language to british English. Then it can work by shift+@.

7. Don't work all the time. This keyboard has auto sleep / wake up function. when customers do not use it in 3 mins, it will enter into sleep automatically, this time the customers can press any button to make it wake up. also please let customers to charge the keyboard and make sure it is on enough power. if it still can not work, please contact the seller or support@riitek.com for a further help.

8. Keyboard unable to charge. There is something wrong on the battery. Please contact support@riitek.com for a replacement.

### Using the Touchpad

The touchpad is activated together with the keyboard. When the keyboard is on, the keyboard is ready for use. FN+F8 can turn on / off touchpad function. You will enjoy more convenience and control on-screen menu easier.

### Auto Sleep and Wake-up feature

The keyboard supports auto sleep and wake-up. Without operation around 3 minutes, the keyboard will enter sleep mode. In sleep status, all LED indicators are off. Pressing any key can wake it up.

### Switching off the keyboard after use

After use, push the switch to the "OFF" position to turn it off. The USB receiver does not need to be pulled out from the terminal. You can use it next time directly.

### Charging the battery

The device uses built-in lithium-ion battery. Please use only approved data cables and chargers.

**Note:** Fully charge the unit before initial operation. This device can be used when charging, but charging time will be extended. When the battery is low, the low-voltage light will blink to warn the user. The unit will be automatically turned off if the battery has been depleted.

### Multi-finger Functions Touchpad (Only for i8+ A/B versions)

This touchpad supports multi-finger functions.

- (1) When a single finger click, on behalf of the left mouse function keys
- (2) When two-finger click, on behalf of the right mouse function keys
- (3) When double finger drag up and down, on behalf of the Rolling screen
- (4) When a single finger sliding pointer can be controlled

### Turn on/off the Backlit LED (Only for i8+ A/B versions)

Two Modes: Software Control and Manual Control  
 When the wireless connection is successful, the backlit LED will be automatically on 3 seconds, then off, to save power and lengthen standby time. You can click the backlit LED button to turn the LED on. Users can turn on the LED in dark environment for better operation.

### Enabling the backlight (Only for i8+ A/B versions)

The backlight led will automatically turn on for three seconds after having pressed the power switch to the on position. If enabling backlight function, the backlight led will light for one minute. In a minute, if having no key is pressed, the backlight led will turn off. After backlight led turned off, the backlight led will turn on again if you press any key again. Enable/disable the backlight led through pressing Backlight control key.

### Audio Feature (Only for i8+ A versions)

Audio feature configuration is available for this device. This device includes a MIC. Under some systems, the audio feature requires manual configuration.

### Warning

- When charging finishes, pull out the charging cable.
- Never try to open or repair this product yourself.
- Keep this device away from fluids, such as water.

### Maintenance

- Do not attempt to disassemble the device or replace the rechargeable battery. Doing so will void the warranty.
- The battery will discharge when it is stored for a long time without operation.
- Use the specified charger. Disconnect the device when the battery is fully charged. Overcharging will shorten the battery life.
- Do not expose the device in extreme heat or cold environment, which will shorten the battery life.

### Disposal

Always dispose the used appliance at a recycling centre. Do not dispose the used appliance together with the household waste.
